2. Crisis Center

The Tellurian CARE Center is located at 300 Femrite Drive, Madison WI 53716

(608) 224-2500	TellurianCareCenter@Tellurian.org.
----------------	------------------------------------

The Tellurian CARE Center (Crisis Assessment, Recovery and Empowerment) is a Community Based Residential Facility (CBRF) to help those who are unnecessarily confined to institutional or hospital settings. Often times, the problem is primarily due to a lack of community based residential options adequate to meet their needs. The Tellurian CARE Center provides a safe environment for individuals who are experiencing a mental health crisis and who are in need of support, medication and symptom management, as well as goal orientated treatment planning. WHAT DO WE DO?

Tellurian CARE Centers operate in accordance with the Department of Health Services 34 (DHS) Crisis Stabilization requirements. The Tellurian CARE Center has been designed and developed with a goal of returning the individual to their home or work environment as soon as the crisis has been stabilized. The length of stay in the 16-bed facility is dependent on each Consumer's needs and is typically 14 days or less. However, depending on the crisis, some Consumers may require longer stabilization periods or assistance in obtaining the necessary treatment due to financial assistance, housing or support resources necessary to maintain success within the community environment.

TELLURIAN'S SUPPORT SERVICES

Consumers at the Tellurian CARE Center receive 24-hour support and supervision. They receive daily individual and group services focused on alleviating symptoms, teaching coping skills, promoting recovery and developing skills necessary for greater independence. Psychiatric and nursing services are provided, as needed. Program staff meet with Consumers to assess their needs and develop connections to community resources upon discharge to help assure continued success and recovery.

Group Schedule:

Psychoeducational and Support Groups meet 3 times per day; 10:45am, 12:45pm and 8pm

3. Detox Center

4. Residential Treatment Centers

a. Hope Haven-Catholic Charities

608-251-8881

We treat adults and 18 year old students in high school or working toward a GED. Clients are required to stay at Hope Haven's North Bay Lodge 24-hours a day for the term of their primary treatment, they may not attend school. As a medically monitored facility, prospective clients seeking treatment must be sober - meaning having already completed detox or not be in active withdrawal at intake and free of mood altering substances. They cannot be on prescription narcotics including benzodiazepines. Suboxone is permitted if the client is on a stable dose. No one follows the same road to recovery. We will meet with the prospective client to make an assessment and plan, unique to them, to help manage their addiction and overcome abuse. An assessment is usually performed within 24 hours (Monday - Friday we do not do assessments on the weekends). After the assessment clients are approved by our Director and an intake date is usually scheduled within 24 hours. Clients do not need to be residents of Wisconsin to attend Hope Haven. Services are comprehensive, affordable, and provided regardless of sexual orientation, religious, ethnic, racial or social background.
